Subject: [External] F-2025-28025 - Second Administrative Appeal / Constructive Exhaustion

To the Appeals Officer:

Please find attached our second administrative appeal regarding FOIA Request F-2025-28025, originally submitted August 4, 2025.

The Department has now failed to respond to our initial September 11, 2025 appeal for over three months and has produced zero records 133 days after our original request. This constitutes constructive exhaustion of administrative remedies.

We are providing this final opportunity for administrative resolution before pursuing all available legal and congressional remedies.

We expect a substantive response within 20 business days.

Respectfully,

David Burger
