Dear David Burger:

I am responding to your 2/4/2026 letter requesting expedited processing of your Freedom of Information Act (FOIA) request for documents regarding *Records sufficient to show how CMS addressed known Medicare home health agency (HHA) and hospice fraud indicators*. The basis for expedited processing set forth in your letter is *nothing attached*.

I reviewed your request in line with 5 U.S.C. §552(a)(6)(E). This section provides for expedited processing of FOIA requests when the person requesting the records demonstrates a compelling need as defined by the statute; i.e., an imminent threat to the life and safety of an individual; or, for the media, urgency to inform the public concerning actual or alleged government activity. On the basis of the information available to me, I find that your request does not qualify for expedited processing based upon "compelling need."

I also reviewed your request in light of "other" circumstances that warrant expedited processing according to this agency's Federal Register Notice Vol. 81, No. 209 (dated Friday, October 28, 2016). Such circumstances cover the need for disclosure of the specific records in question because the requester must meet: a deadline in litigation, either in court or before an administrative tribunal; or a deadline imposed by a governmental agency for commenting on a proposed regulation. I find that none of these circumstances apply here.

Finally, in line with the provision of our Federal Register Notice that requires consideration of all requests that do not fall within the circumstances enumerated therein, I have considered the situation set forth in your letter. Unfortunately, I cannot conclude from the information you have provided that there is "exceptional need or urgency" justifying expedited processing in this case.

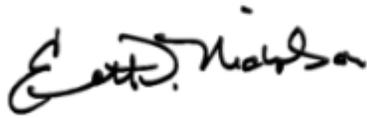

Therefore, I cannot grant your request for expedited processing. This Group will process your request in accordance with this agency's "first in, first out" practice.
